

BARRETTINE NOURISH & PROTECT WOODWORM KILLER

For use on internal or external timber.

This product is approved under the Control of Pesticides Regulations 1986 for use as directed.

For use only as a wood preservative. Low odour solvent based ready for use.

DIRECTIONS FOR USE

PREPARATION: Areas to be treated should be clean, dry and free from surface coatings, such as varnish, paint etc, remove as necessary. Badly attacked wood should be cut away and burnt, making necessary structural repairs.

AREAS OF USE & APPLICATION:

WOOD PRESERVATIVE FOR AMATEUR USE AGAINST WOOD BORING INSECTS - AGITATE WELL BEFORE USE.

Use appropriate Personal Protective Equipment i.e face mask (A1 or A2 Class filter), gloves and coveralls, particularly when used in a confined space. Call Barrettine for further information/advice. Apply by brush or low pressure spray ensure all holes/surfaces are saturated. Allow to dry (touch dry approx 6 hours) before applying a second treatment. For treating roof and floor joists, other structural timbers and wooden furniture. If treating furniture in an occupied room treat the article in a well ventilated place ideally outdoors, allow to dry and ventilate thoroughly prior to placing the article back to its original location. Ensure treated surfaces are thoroughly dry before overpainting. End grain should be treated to saturation.

Application rate: Prevention: 200ml per m² or 1 litre to 5 sq metres. Eradication: 300ml per m² or 1 litre to 3.3 sq metres.

NOTE: On sensitive areas, check that Barrettine Woodworm Killer has no effect on colour or finish by testing on an inconspicuous area. Avoid contact with Bituminous products including roofing felts.

DRYING TIMES: Normally up to 48 hours depending upon conditions. Ventilate treated areas thoroughly after application.

AFTER USE: Reseal container, always store upright and secure at all times. Clean brushes with Barrettine White Spirit. Any splashes can be cleaned similarly.

STATUTORY CONDITIONS OF APPROVAL RELATING TO USE. FOR USE ONLY AS A WOOD PRESERVATIVE

READ ALL PRECAUTIONS BEFORE USE. HSE No. 10241 PCS No. 98353

Users must comply in full with all their legal responsibilities under the control of Pesticides Regulations 1986 (as amended), including complying with all Conditions of Approval.

APPLICATION RATE: BRUSH OR SPRAYING: Prevention: 200ml per m² or 1 litre to 5 sq metres. Eradication: 300ml per m² or 1 litre to 3.3 sq metres.

VERY HIGH VOC CONTENT >50%

VOCs (Volatile Organic Compounds) Contribute to atmospheric pollution.

OTHER WOOD TREATMENTS IN THE BARRETTINE RANGE

Premier Nourish & Protect Coloured Preservative - (PNPC) is a low odour solvent-borne ready to use product. It actively protects against wood destroying and wood discolouring fungi as well as against wood boring insects. PNPC Preserver has good penetrating power transporting the actives deep into the wood. Coloured versions contain UV fade resistant pigments that provide some protection to the wood from damaging sunlight.

Clear Universal Wood Preservative - (CUWP) is a solvent-borne ready to use product. It contains active ingredients effective against wood destroying and wood discolouring fungi as well as against wood boring insects. CUWP penetrates wood easily and thereby gets deep into inner layers. It is moisture regulating and provides an adhesive surface suitable for glues, fillers, and solvent or water based finishing treatments such as paints, varnishes, stains etc.

Decking Oil All-In-One Treatment - Specifically formulated for use on pressure treated and preservative impregnated timber offering superb protection to deck boards, deck tiles and balustrades etc. Also achieves a superior finish to summerhouses and other outdoor timber structures and materials. Non-flaking and its water repellency helps protect timber from splitting & cracking.
